## INTERESTS

Musical Performance  
Audio Engineering  
Philosophy, Horror & Sci-fi  
Golang  
Neural Networks

## EXPERIENCE

### **General Assembly, New York, 07/2016 - Present**

*Instructional Associate*

Helped develop new curriculum adjusting for students' needs and current technological trends. Taught lessons on SASS, JS, CoffeeScript, React, Redux, Ruby on Rails, Node, Express, OAuth, Action Cable, RSpec, and Cucumber

### **IDT Corp, Newark, 05/2016-07/2016**

*Software Engineering Intern*

Tested new features in production apps on an AGILE team. Prototyped automated testing suite to test Android apps with Ruby code on a Jenkins box integrated with AWS Device Farms. Advised IDT Ventures startup, Pedul, on best stack options.

### **General Assembly, New York, 12/2015 - 05/2016**

*Teaching Assistant/Student*

Assisted students with daily homework and project work. Instilled good design and debugging practices. Introduced students to useful technologies and documentation

Completed full-time Web Development Immersive to apply programming fundamentals, modern technologies, and deployment techniques to full-stack applications - HTML, CSS, Javascript (jQuery, Node), Ruby (Sinatra, ActiveRecord), Ruby-on-Rails, SQL (SQLite3, PostgreSQL), Heroku, Git.
